

## Press Release

Diesel Loco Modernization Works, Patiala is an important production unit of the Indian Railways, which manufactures electric locomotives as well as Diesel Electric Tower Cars (DETCs), Traction Motors and other parts. To improve the energy efficiency, many types of energy conservation measures are being adopted in DMW Workshop and colony area in last couple of years. As a result, the energy efficiency is continuously improving every year.

Recently, a state level Energy Conservation Award Competition was organized by PEDA (Punjab Energy Development Agency) Chandigarh, in which DMW Hospital is conferred with the award under the category of Commercial buildings for extra efforts made for Efficient Utilization, Management and Conservation of Energy during the last two years 2018-19 & 2019-20. This award was presented by Department of New and Renewable Energy Sources, Government of Punjab in a virtual ceremony.

DMW is also declared as Energy Efficient Unit for the third consecutive year during 22<sup>nd</sup> National Award for Excellence in Energy Management organized by CII, Hyderabad from 24th to 27th August 2021.

Shri S. N. Dubey Principal Chief Administrative Officer congratulated the DMW hospital and Electrical team and expressed his happiness. He also motivated his employees to keep this good work going in the future as well.

Shri Dubey dedicated these awards to all the staff of DMW for their constant hard work and making their best efforts to give outstanding performance in energy conservation during last two years despite numerous challenges posed by the COVID-19 pandemic.
